Why I have chosen this topic ?

Nowadays, many people & youngsters fell lack of space to play.
So people have to find a place to play. and I play every weekend and i am suffering this problem. For that reason I thought
How we can solve that problem of people online platform.

02 About Project

I have designed Sports Complex Booking App! Discover a world of convenience at your fingertips. With our app, you can effortlessly book your favorite sports facilities, check real-time availability, and secure your desired time slots. We prioritize your safety and security with easy, secure payments and flexible booking options. Plus, our user-friendly interface and dedicated support team are here to make your sports booking experience seamless and enjoyable. Get ready to play, stay fit, and have fun with us.

03 Problem Statement

Nowadays, due to the increasing population, there is a shortage of space to play. Therefore, the young generation and children are not getting space to play and where there is a big government ground, there are fights for space. So children have to go to private places to play. And if you want to go to a private place to play, you have to go there and inquire.

E.g. When is the turf available, for how long and how much do you have to pay. etc.

And often as a user myself I'm thinking about what I can do when my team members aren't around but I still want to play.

So I am thinking how can I solve these problems of people online.

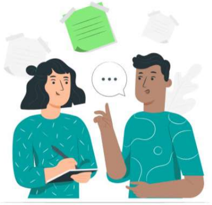
04 Solution’s

- Design an intuitive and user-friendly interface for easy navigation.
- Include high-quality visuals of the sports complexes, facilities, and amenities.
- Allow users to create accounts and manage their profiles.
- Include social media login options for a convenient registration process.
- Enable users to view their booking history and preferences.
- Display detailed information about each sports complex, including facilities, available sports, location, and pricing.
- Implement a search and filter system to help users find specific sports complexes based on their preferences.
- Provide a user-friendly booking calendar for selecting dates and times.
- Allow users to book specific sports facilities within the complex.
- Support various payment methods, including credit/debit cards, digital wallets, and other popular options.

05 Research Methods

01.Qualitative Analysis

1. How often do you use a sports complex or sports facility to play ?
2. How do you book a sports complex to play ?
3. What type of sports or activities are you interested in booking at a sports complex?
4. Are there any specific amenities or features you look for when booking a sports complex ?
5. How far in advance do you typically plan your sports complex bookings?
6. How much do you usually spend when you book sport facility per hour ?
7. Have you ever encountered challenges or issues when booking sports complexes in the past, and if so, what were they ?
8. Do you have any additional comments or suggestions for improving the sports complex booking Online process?



06 Survey Responces

02.Quantitative Analysis

1. For the quantitative analysis i created the survey form and that survey form I shared those who play sports regular or weekend.
2. Then after that fill up that form i understood their survey response feedback

13 User Scenario

Akash, a passionate Badminton player, discovers a bustling sports complex nearby through a friend's recommendation. Eager to secure a Badminton court for a match with a colleague, Akash decides to explore the complex's facilities. Akash downloads the sports complex booking application from the app store. The sleek interface immediately captures attention, showcasing a variety of sports facilities available for booking.

Excited, Akash navigates through the app and selects the Badminton section. The app displays various courts with real-time availability. Akash picks Court 5 for tomorrow afternoon's game. With a few taps, Akash confirms the booking, reviews the details, and proceeds to payment. The app offers multiple secure payment options, making the transaction swift and hassle-free.

The app sends a booking confirmation and a reminder notification, ensuring Akash doesn't miss the game. Akash adds the booking to the phone's calendar and shares the confirmation with the playing partner. On the game day, Akash arrives at the sports complex. The app's geolocation feature provides directions, guiding Akash straight to Court 5. The QR code check-in at the entrance confirms the arrival. The staff at the complex greets Akash, who shows the booking confirmation on the app. Excited, Akash and the colleague begin an exhilarating badminton match on the well-maintained court.

Post-game, the app prompts Akash for feedback. Impressed by the facilities and seamless experience, Akash rates the court quality and the app's user-friendliness positively. Thrilled by the experience, Akash browses through the app again, planning future matches and exploring other sports amenities available at the complex. Akash recommends the app and the sports complex to other friends, praising the ease of booking and the fantastic sports facilities.

With the game done and the app's efficiency in booking the court, Akash eagerly anticipates the next match, confident that the sports complex booking application will continue to enhance the sports experience.

01.Color palette

I chose the green color is associated with fluid communication and clarity. It is serene, calming, and, like other green blue hues, associated with nature and water.

For high contrast, pair teal green with maroon. For a fresh, relaxed feel, combine teal green with other blue green hues. Meanwhile, for a provocative and modern palette, use teal green with deep purples and creams.

25 Usability testing

Usability testing is a method of testing the functionality of a website, app, or other digital product by observing real users as they attempt to complete tasks on it.

- **I conduct 3 to 4 person usability testing and i found a improvement in UI issue.**

- ## Issue

  As you see in 1st screen in my booking screen , there is a three options i.e. upcoming games, groups, past game so when I check up with the user, the user is very confused for those options. It is very complicated for user to understand .

- ## Solution

  So I solved this issue as I mention only 2 option that is upcoming games and past games so it will be cleared message to user that what is a function of that option and I removed group section and added to navigation bar so it will be easy to used.
